

# The new Gardens

## Looking across Diamond Jubilee Gardens

An important part of the brief for the Riverside development is to re-provide the area of the Diamond Jubilee Gardens, a space well loved by Twickenham Residents. The Council is working with the Twickenham Riverside Trust to design a new and improved riverside space. Things you might expect to see in the new gardens include:

Substantial planting areas provide a botanically rich garden

Space to play petanque

A dynamic play area for children

Lawn terraces for events, lounging or games
