

Out of the Woods

WHO LIVES HERE?

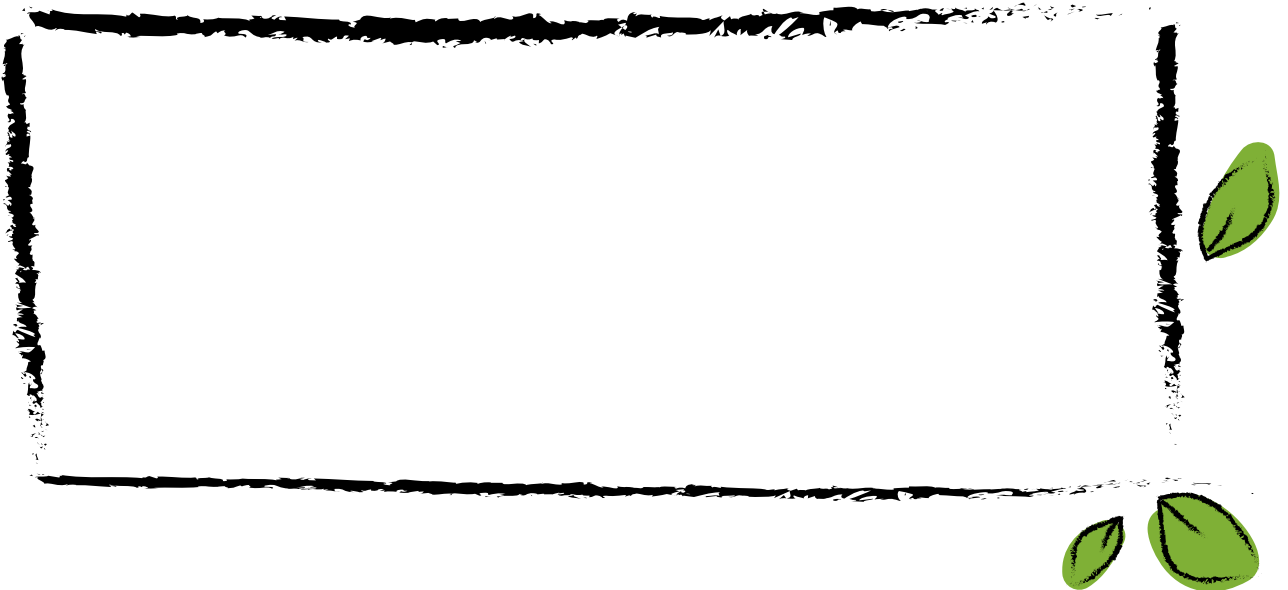

Look at the base of your tree for any mini beasts living there and draw what you find.

I found:

Look at the bark of the tree, are there any mini beasts living here?

I found:

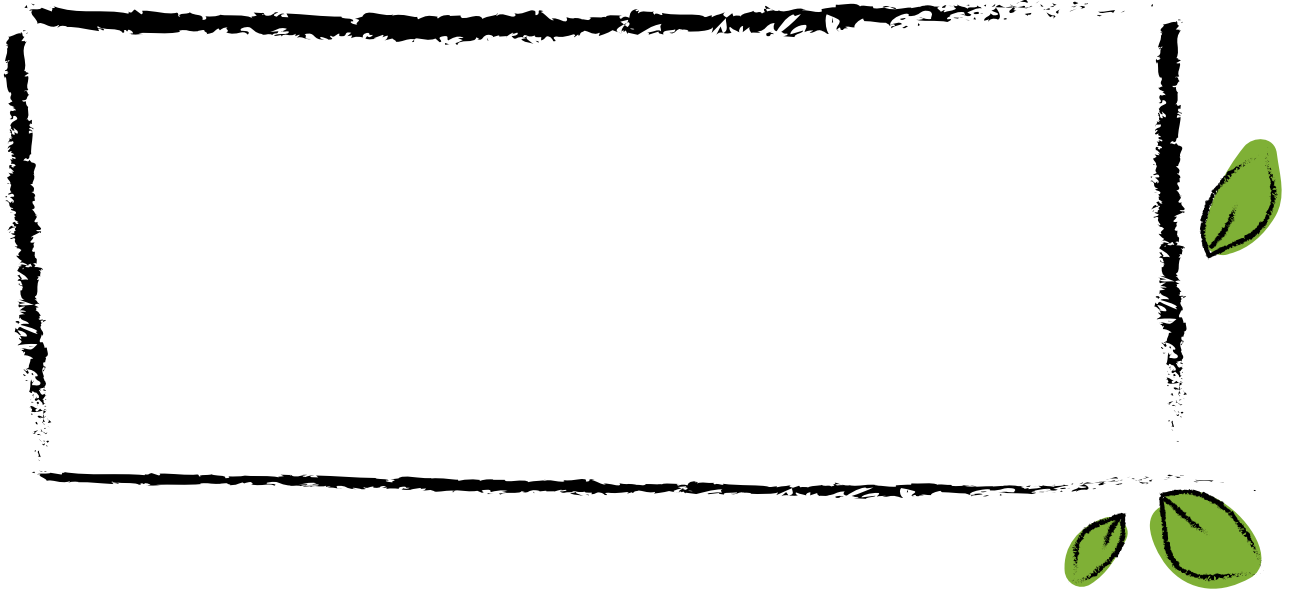

Out of the Woods

WHO LIVES HERE?

Can you see anything living in or on the leaves?

In the leaves there were:

Can you see anything living on or in the trunk?

Circle anything you find and write the name of anything else.

Lichen Moss

Birds

burrowing
animals
/larvae

Fungi

Bats

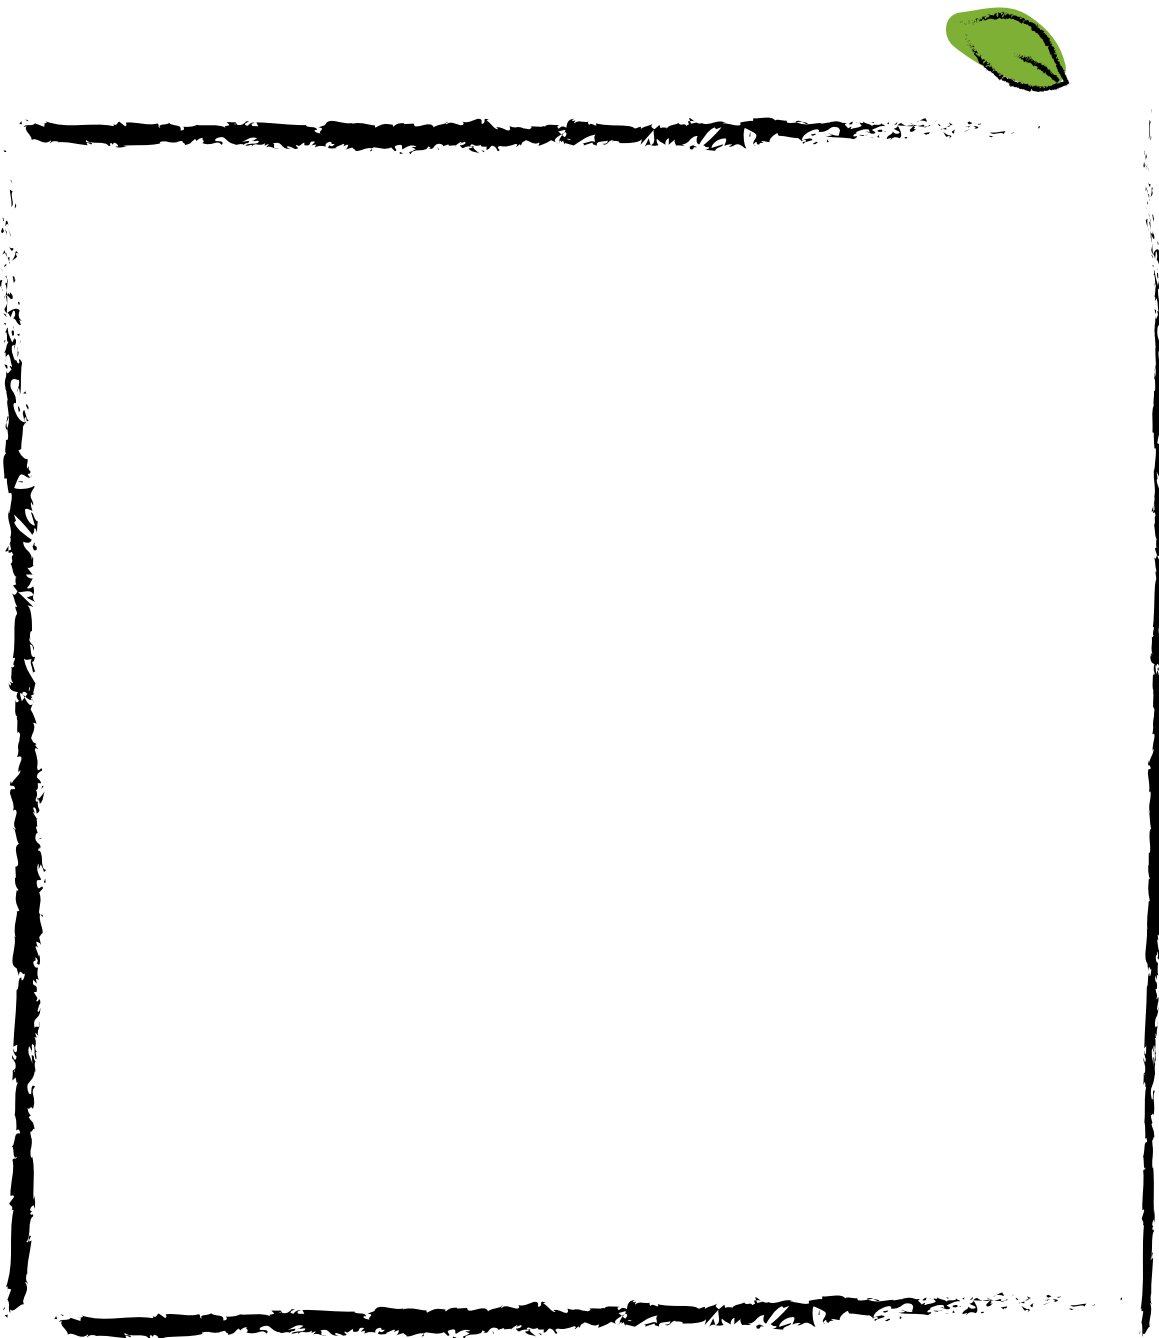

plants
e.g. ivy

Out of the Woods

WHO LIVES HERE?

Look in the branches. Does anyone live here – birds, squirrels, bats, anything else?

I found:

Out of the Woods

WHO LIVES HERE?

Do you think that your tree is healthy? Is it under threat from pests and diseases? Is it old, and at the end of its life – look to see if there are dead branches.

My tree is:

Healthy

Unhealthy

Why do you think this?

Out of the Woods

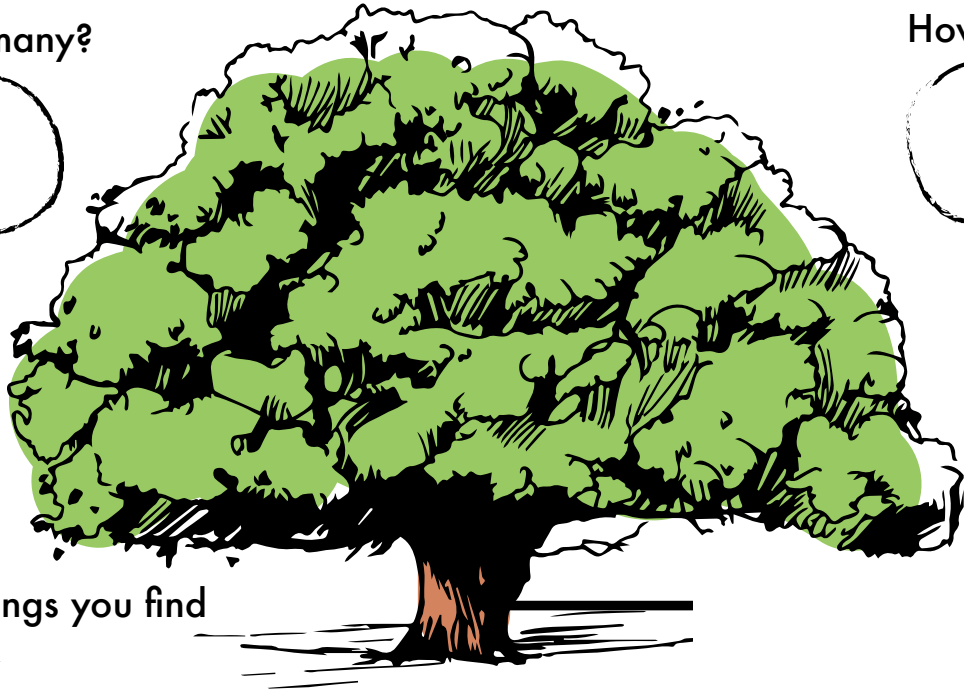

WHO LIVES HERE?

List what you found on and around the tree and count how many things you found all together.

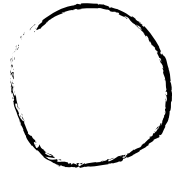

Write a list of things you found on the leaves

Write a list of things you found in the branches

How many?

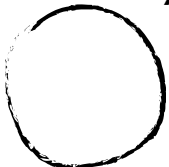

How many?

Write a list of things you find on the tree trunk

Write a list of things you find at the base of the tree

How many?

How many?
