Dear «Name»

Ham Close Regeneration – June 2021 Newsletter and Homeowner Survey

Please find enclosed the following documents:

- Ham Close Newsletter June 21
- Map of Ham & Petersham

The **newsletter** includes information on reaching the key stage of selecting a Developer partner for the proposed regeneration of Ham Close. Once you have read the newsletter, please feel free to contact the Regeneration Team if you have any questions.

A full programme of consultation and engagement is currently being prepared and we will be providing further details of these events in the next couple of weeks. This will set out how you can have your say on the future design of Ham Close.

We have included a local **map** as we thought it would be helpful to see where we have drawn inspiration from your local neighbourhood for the initial concept designs for a new Ham Close.

Finally, thank you for sending back your Homeowner Survey.

We will be planning to meet with you individually to discuss the Homeowner survey contents later this year, once we have a firmer idea of the timescales for the submission of a planning application. This will enable us to have an informed conversation on how the proposed regeneration may impact your property.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'SC', with a stylized flourish extending from the end.

Simon Cavanagh
Regeneration Manager
